Breakfast
In proud association with

FORTINET®

ROUNDTABLE

- How closely do underwriters/brokers work with their clients/insureds on an “ongoing” basis, throughout the policy term, in terms of risk management/threat prevention. What types of tools, techniques and practices do insurers/brokers/clients/insureds favour and why?
- Is the use of AI becoming a concern/changing the cyber risk profile?
- What do Practice Group Members predict for 2024 in the field of cyber insurance?

CONCLUSIONS & CLOSE
